HSI ESG Enhanced Select Index ETF

December 2022

IMPORTANT RISK WARNINGS / FUND INFORMATION FOR HONG KONG INVESTORS

- The investment objective of HSI ESG Enhanced Select Index ETF ("HSI ESG ETF") is to match, as closely as practicable, before fees and expenses, the HKD denominated total return performance (net of withholding tax) of the HSI ESG Enhanced Select Index (the "Index") through investing primarily in the constituent securities of the Index.
 - As "HSI ESG ETF" invests in a new index having only been launched on 29 November 2021. As such, HSI ESG ETF may be riskier than other index funds tracking more established indices with longer operating history.
 - As the use of ESG criteria in the construction of the Index may affect the HSI ESG ETF's investment performance and, as such, the HSI ESG ETF may perform differently compared to similar funds that do not use such criteria, i.e. HSI ESG ETF may be concentrated in companies with a greater ESG focus and therefore may be more volatile than that of a fund with having a more diverse portfolio of investments. Moreover, there can be no assurance that the Index Provider's assessment based upon data from data providers will reflect actual circumstances or that the stocks selected will fulfill ESG criteria. Since currently there is a lack of standardised taxonomy in relation to ESG investing strategies, the standard of disclosure adopted by funds in relation to the relevant ESG factors or principles may vary.
 - "HSI ESG ETF" is also subject to investment risk, equity market risk, concentration and mainland market risks, risks associated with investments in companies with weighted voting rights, risks associated with investment in financial derivative instruments, PRC tax risk, trading risks, passive investment risks, reliance on market maker risks, tracking error risks, termination risks and reliance on the same group risk.
 - The Manager may at its discretion pay dividend out of capital or effectively out of the capital[^] of HSI ESG ETF. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any such capital gains attributable to that original investment. Any such distributions may result in an immediate reduction in the Net Asset Value per Unit.
 - Investments involve risks and investors may lose substantial part of their investment in "HSI ESG ETF".
- [^] The Manager may at its discretion pay distribution out of gross income while charging/paying all or part of HSI ESG ETF's fees and expenses to/out of the capital of HSI ESG ETF (resulting in an increase in distributable income for the payment of distribution by HSI ESG ETF), and thereby effectively pay distributions out of the capital of HSI ESG ETF.
- Investors should not only base on this material alone to make investment decisions, but should read the HSI ESG ETF's offering documents (including the full text of the risk factors stated therein) in detail.
- ESG Information: Additional information relating to (i) how the ESG focus is measured and monitored throughout the lifecycle of HSI ESG ETF and the related control mechanisms; (ii) the methodologies adopted to measure the ESG focus and the Index's attainment of the ESG focus; (iii) the due diligence carried out in respect of the ESG-related attributes of HSI ESG ETF's underlying assets; and (iv) the sources and processing of ESG data can be accessed via data provider's website at <https://www.sustainalytics.com> (this website has not been reviewed by the SFC) and Index provider's website at <https://www.hsi.com.hk> (this website has not been reviewed by the SFC).
